

## Kairos Inside Short Course Critique

Region ..... Course No .....

Date ...../...../.....

"Those who do not know their history are bound to repeat their mistakes."

The reasons for asking for this to be completed are:

- During the training and Short Course there may have been some aspects that you were uncomfortable with
- Some aspects may not have been made clear to you
- You may have disagreed with something that was said or the manner in which it was delivered.

The way in which we can improve is to acknowledge our short comings and work on improving and overcoming them.

It is also be beneficial to have some positive feedback on aspects of the training and Short Course that you felt were good.

Please do not single out any particular person. We are looking to improve the whole experience for both team and residents on future courses.

*If you are not able to answer each of the questions then please just answer those that you feel are more important. Everyone's input is important. A summary of the responses will be prepared and presented to both the Regional Committee and the State Council.*
